

PRO FIT UNLOADER 2

OA KNEE BRACE

The Pro Fit Unloader 2 is the perfect brace for patients with mild to moderate osteoarthritis. This brace features a low profile single upright design that is easily customizable to every patient. The intuitive unloading mechanism and numbered strapping system allow for easy application and use. Its universal design covers a wide range of sizes reducing inventory and allowing the brace to be used for both medial and lateral unloading. The most exciting features of this brace are a unique non-slip moisture wicking padding and straps with built in elasticity which greatly minimize the effects of migration when the patient is walking.

**Today's Trend...
Tomorrow's Standard**

■ Numbered straps for easy application and use

■ Strap Elasticity expands and constricts with leg movement

Product Features:

- Single Upright OA
- Universal Sizing
- 2 SKU's (Right or Left)
- Quick Release push clips
- Lightweight, low profile

■ Hinge Unloads medial & lateral compartments using easy directional key

■ Non-slip moisture wicking padding for patient comfort
